QD01

TO: IS20/MSFC Management Directives Manager
FROM: QD01/Safety & Mission Assurance Directorate
SUBJECT: Request for Waiver for MCP 8715.1, Annual Safety, Health and Environmental (SHE) Program Plan

Waiver Number: MCP 8715.1-WAV01

In accordance with MPR 1410.2, 2.1.7, IS01 requests approval for waiver from MID 1410.1, 1.2.1.1.

1) Define the proposed departure from the requirement(s):

IMSC-Plan-008 was revised and updated to the current nomenclature for MSFC Center Directives, i.e., MCP 8715.1.

2) Justification for the waiver (include references to any applicable nonconformance, discrepancy, or deficiency report(s)):

The purpose of this message is to request a waiver to the MSFC Interim Directive (MID) 1410.1 for the FY 2015 SHE Program Plan. The rationale for this request is because the subject document was processed as it has been in past years, to include being vetted through the SHE Committee for acceptance. The process was completed and the document was ready for signature on October 1, 2014, which was before the MID 1410.1 was implemented. Due to Center management decisions and holiday leave, subject document was not signed until January 21, 2015.

3) Applicability, impacts, and conditions (if any) of waiver:

This waiver will remain in effect until the next revision of MCP 8715.1.

4) Alternate plans to meet any ISO 9001 or AS9100 requirement(s):
