SUBJECT: Request for Cancellation of MPG 1230.1, "Center Resources Management Process"

In accordance with MPR 1410.2, RS01 requests approval for cancellation of Marshall Procedures and Guidelines (MPG) 1230.1, "Center Resources Management Process," for the following reasons:

1. The resources management process documented in MPG 1230.1 is outdated and does not reflect how the Center's resources are currently managed.
2. The MPG format violates NASA Headquarters (HQ) requirements as established during the HQ Rules Review when MPGs were converted to Marshall Procedural Requirements (MPR) directives.
3. Changes in NASA HQ budget requirements have not been fully defined and therefore, the Center process cannot be updated.

When the Center budget process changes have been finalized, they will be documented in a Marshall Procedural Requirements (MPR) directive.
