In accordance with MPR 1410.2, 2.1.5, "Marshall Directives System," ED01 requests approval for cancellation of MPR 8040.1, "Configuration Management, MSFC Programs/Projects."

MSFC configuration management requirements have been incorporated into MPR 7123.1 Revision B, "MSFC Systems Engineering Processes and Requirements." Requirements for configuration identification and release for data released through the MSFC Release Desk have been incorporated into MSFC-STD-555, "MSFC Engineering Documentation Standard," Revision J. Guidance for MSFC program/project configuration management implementation is contained in MGM 8040.1 Baseline, "MSFC Configuration Management Guidance."

Therefore, MPR 8040.1 is no longer required.
