SUBJECT: Request for Cancellation of MPD 1394.1, Control of Audiovisual Products

In accordance with MPR 1410.2, CS01 requests approval for cancellation of MPD 1394.1, Control of Audiovisual Products. The Directive is proposed for cancellation for the following reasons:

All audiovisual products must now be approved through the NASA Headquarters Communications Management System. Marshall Center approval is one step in this Agency process. The existing policy directive at MSFC now is redundant and adds no value; therefore it is no longer needed.
