SUBJECT: Request for Deviation from MPR 1410.2, Marshall Directives System

*Note:
2013 Annual Directives Review

Deviation Number: MPR 1410.2-DEV06

In accordance with MPR 1410.2, 2.1.6, DE01 requests approval for deviation from MPR 1410.2, 2.11.

1. Define the proposed departure from the requirement(s):

MPR 1410.2, 2.11 requires all Center-level directives to be reviewed for validity and currency once a year by the OPRD and/or OPR. The requested deviation is to omit the 2012 Annual Directives Review.

2. Justification for the deviation (include references to any applicable nonconformance, discrepancy, or deficiency report(s)):

For the 2011 Annual Directives Review, an in-depth review was conducted by each Direct Report of respective Office of Primary Responsibility (OPR) directives focusing on validating requirements, reducing unnecessary requirements, and streamlining Center documentation. The review period lasted 3 months due to the magnitude. As a result, 65 percent of Center-level directives (118) were targeted for revision. Currently, only 39 percent have been revised, processed and posted. Therefore, with 53 percent remaining to be processed and 7 percent remaining to be submitted from the 2011 Annual Directives Review, conducting the 2012 Annual Directives Review at this time would be counterproductive.

3. Applicability, impacts, and conditions (if any) of deviation:

The requested deviation applies only to the 2012 Annual Directives Review.

4. Alternate plans to meet any ISO 9001 or AS9100 requirement:

None needed.
