SUBJECT: Cancellation of MPR 3300.1C, Dual Career Promotion Process

In accordance with MPG 1410.2, the Office of Human Capital requests approval for cancellation of MPR 3300.1C, Dual Career Promotion Process, dated May 12, 2006. This MPR consists of a description of the Marshall Space Flight Center's process for considering self-nominations for accretion of duties promotions of engineers and scientists to the grade of GS-14 and GS-15. No organization at the Center has used the Dual Career Process in approximately 4 years. The Center has put in place a process to manage the establishment of new high grade positions.

This proposed change has been discussed with the Marshall Engineers and Scientists Association, and they have not expressed an intention to bargain over the substance of the proposed cancellation.
