FROM: QD01/Safety and Mission Assurance Directorate  
SUBJECT: Cancellation of MWI 1280.5-DEV01

In accordance with MPR 1410.2, 2.1.5, Marshall Directives System, QD01 requests approval for cancellation of MWI 1280.5-DEV01, MSFC ALERT Processing.

This deviation was established by the SLS Program Office to allow alternative closed-loop processing of ALERTs. The SLS program expects to continue ALERT processing in accordance with this deviation. As such, the deviation has been incorporated as tailoring into the actual directive MWI 1280.5, MSFC ALERT Process, effective September 24, 2019. Therefore, this deviation is no longer required.
