ED01 (16-31)

TO: DA01/Director
THRU: IS20/MSFC Directives Manager *rw 3-24-16*
FROM: ED01/Director, Engineering Directorate
SUBJECT: Cancellation of MWI 1280.1, "Mechanical Fabrication Request Instructions"

In accordance with MPR 1410.2, 2.1.5, "Marshall Directives System," ED01 requests approval for cancellation of MWI 1280.1, "Mechanical Fabrication Request Instructions."

The requirements for MWI 1280.1, "Mechanical Fabrication Request Instructions" included a web-based request submittal function that never came into fruition. Removing all web-based submittal requirements from the MWI leaves only an unnecessary elaboration of instructions already incorporated on Page 2 "Mechanical Fabrication Request – Instructions" of MSFC Form 3751, "Mechanical Fabrication Request" effective November 2015. Therefore, this instruction is no longer required.

Handwritten signature of Carl P. Jones in cursive.

Carl P. Jones

Approval:

Handwritten signature of Todd A. May in cursive, written over a horizontal line.

Todd A. May
