Reply to Attn of: MP01

February 23, 2007

TO: DA01/Director  
THRU: IS20/MSFC Management Directives Manager  
FROM: MP01/Shuttle Propulsion Office  
SUBJECT: Request for Deviation/Waiver

Waiver Number: MWI 5330.2-WAV01

In accordance with MPR 1410.2, MP01 requests approval for waiver from MWI 5330.2.

Define the proposed departure from the requirement(s):

The Shuttle Propulsion Office requests to continue using Revision B of MWI 5330.2 during the final Reusable Solid Rocket Motor audit Phase II audit sequence for ATK Launch Systems FY 2007 (April 2006 – March 2007)

Justification for the deviation/waiver (waivers must include references to any applicable nonconformance, discrepancy, or deficiency report(s)):

Three previous audits used Revision B of MWI 5330.2, therefore, to maintain consistency (in categorizing findings) throughout the Phase II audits for ATK Launch Systems FY 2007 process.

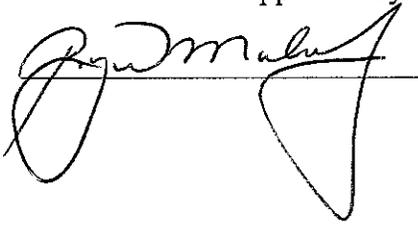

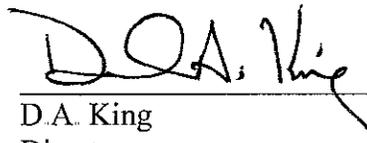

Applicability, impacts, and conditions (if any) of waiver:

This waiver applies to the Phase II audit conducted at the ATK Launch Systems facility on January 30-31, 2007, which occurred after MWI 5330.2 Revision C was effective (November 7, 2006).

Alternate plans to meet any ISO 9001 or AS9100 requirement(s):

The Shuttle Propulsion Office plans to use the latest revision of MWI 5330.2 for future Phase II audits

Approved by:

A handwritten signature in black ink, appearing to be "R. J. Malin", written over a horizontal line.A handwritten signature in black ink, appearing to be "D.A. King", written over a horizontal line.
