SUBJECT: Request for Cancellation of MWI 8060.3, Requirements and Design Reviews,  
MSFC Programs and Projects

In accordance with MPR 1410.2, QD01 requests approval for cancellation of MWI 8060.3, Requirements and Design Reviews, MSFC Programs and Projects.

Reason for the cancellation: In keeping with the intent of recent direction regarding NASA rules, and realignment objectives of controlling top level project management processes within the Systems Management Office, MWI 8060.3 will be replaced by MPR 8060.3, Requirements and Design Reviews, MSFC Programs and Projects. This will more readily accommodate development of detailed processes within the Program and Project Offices at the Center.
