Reply to Attn of: IS01

TO: DA01/Director
THRU: IS20/MSFC Management Directives Manager
FROM: IS01/ Office of the Chief Information Officer
SUBJECT: Cancellation of MPR 2810.1, "Security of Information Technology"

In accordance with MPR 1410 2, IS01 requests cancellation of MPR 2810.1, "Security of Information Technology."

MPR 2810.1, "Security of Information Technology," provided the requirements for the Center Information Technology Security Program that are now documented as requirements for all Centers in NPR 2810.1, "Security of Information Technology." Centers will no longer be developing local requirements, only local operating procedures to meet the Agency requirements. Therefore, MPR 2810.1, "Security of Information Technology," is no longer required.
