Reply to Attn of:

QD01

TO: DA01/Director
THRU: IS20/MSFC Directives Manager
FROM: QD01/Safety and Mission Assurance Directorate
SUBJECT: Cancellation of MPR 8730.4, "Statistical Techniques"

In accordance with MPR 1410.2, 2.1.5.1, "Marshall Directives System," QD01 requests approval for cancellation of MPR 8730.4, "Statistical Techniques."

MPR 8730.4, "Statistical Techniques," was initially created to reflect ISO 9001:1996. (The ISO Implementation Team made a decision, at that time, to create at least one procedure for each of the 20 ISO Elements if one did not exist already, which included Statistical Techniques.) There are no requirements for MPR 8730.4, "Statistical Techniques."

Therefore, this Marshall Procedural Requirements directive is not required.
